THE NEW AVENGERS

REVOLUTION

PART FIVE

PREVIOUSLY...

The Civil War has ended. Captain America surrendered to Iron Man's pro-registration forces, and now the Avengers are no more. Superhumans such as Luke Cage, Spider-Man, Wolverine and Spider-Woman have gone underground rather than register their identities with the government.

Meanwhile, Maya Lopez--the deaf woman also known as Echo--is violently killed by Elektra, the current leader of the Hand, after being dispatched by the Avengers to Japan to keep an eye on the Japanese underworld. But Elektra brings Maya back to life and begins to brainwash her. Before her mind is completely destroyed, the New Avengers, including Doctor Strange, Iron Fist, and Clint Barton, who now wears the mask of Ronin, arrive to rescue her.

The Hand tracks the team to Castle Yashida, home of the Silver Samurai. And it is not long before Maya gives in to the Hand's brainwashing and violently stabs Doctor Strange…
